

Dealer Loan Procedures

The loan program for rider education makes motorcycles available to qualified organizations offering motorcycle rider education. It involves the cooperative efforts of motorcycle distributors, local dealers and the organization sponsoring the program.

Motorcycles are essential to the success of any high-quality motorcycle rider-education program. The loan program developed by the Motorcycle Safety Foundation and its manufacturer/distributor sponsors eases the way for you to obtain motorcycles for your courses.

Five of the motorcycle manufacturer distributors that sponsor the Motorcycle Safety Foundation (Honda, Kawasaki, Piaggio, Suzuki and Yamaha) make certain loan bikes available through their local dealers to qualified rider education programs. They provide special incentives to dealers who participate in the loan program. However, local dealers may not be aware of the program or the way it works. It's your responsibility as the program spokesperson to approach the dealers, interest them in the program and gain their support.

Rider Education Motorcycle Loan Agreement Forms are available from the MSF, or your dealer may have copies.

Following are basic loan procedures for each manufacturer/distributor and the models available in 2010.
